**DETAILED ACTION**

1. Applicant's amendment and accompanying remarks filed November 13, 2008 are acknowledged.
2. Examiner acknowledges cancelled claims 1-3, 6-17 and 19.
3. Examiner regrets the early indication of allowable subject matter for present claims 4-5, 18 and 20.
4. The rejection of claims 1-3, 12, 14 and 16 under 35 U.S.C. 102(e) as being anticipated by Hosokawa et al., U.S. Patent Number 6,951,693 is overcome by applicant's cancelled claims 1-3, 12, 14 and 16.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 5 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 5 is rendered indefinite because it is unclear as to whether there are more than one organic compound layers. Claim 5 recites an organic light emitting device comprising a pair of electrodes consisting of an anode and a cathode and an organic compound-containing layer sandwiched between the pair of electrodes, wherein (a) at least one layer of the organic compound-containing layers contains ... light emitting layer.

***Claim Rejections - 35 USC § 102***

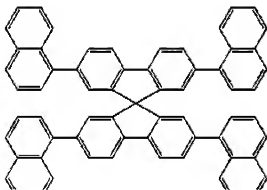

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

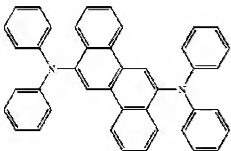

(c) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 4 and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Matsuura et al., U.S. Pre Grant Publication 205/0064233.

Matsuura discloses an organic light emitting device comprising a pair of electrodes and a light emitting medium disposed therebetween. The reference discloses that the light emitting medium can comprise a spirofluorene compound such as

and compound with the structure,

. Matsuura reads on present claims 4 and 18 when Y<sub>1</sub> to Y<sub>4</sub> are phenyl groups.

### ***Response to Arguments***
